- Weight: 0.8 kg
- Weight incl. Packaging: 5.5 kg

Power
- Battery type: AA, LR6
- Battery voltage: 1.5 V
- Mains power
- Number of batteries: 4

Product highlights

Time Projection
Time Projection lets you project the time on any surface at any angle. The innovative projection system ensures that the time will always be positioned and orientated correctly. Unlike conventional LCD displays, the negative LCD display allows light to pass through without significant distortion. A powerful LED luminously lights up the negative LCD to project the light within a certain distance. With its accurate lens, the clock projects the image and even adjusts the focus to your satisfaction. No need to get up and check the time - just open your eyes!

Rotate & reverse the image

Digital tuning with presets

LCD backlit for better viewing

Gentle Wake
Gentle Wake is a customizable volume control for your alarm that gently wakes you up at your preferred volume level instead of jolting you awake. Simply set 'start' and 'end' volume levels that you feel comfortable with and your CD, radio or buzzer alarm will gently bring you out of sleep, with an increasing volume, to a state of wakefulness. Gentle Wake allows you to easily personalize the volume range for your alarm.

Sleep Timer
Sleep Timer lets you decide how long you want to listen to music or a radio station of your choice before falling asleep. Simply set a time limit (up to 1 hour) and choose a CD or radio station to listen to while you drift off to sleep. The set will continue to play for the selected duration and then automatically switch off to a power-efficient, silent stand-by mode. Sleep Timer lets you fall asleep to your favorite CD or radio DJ without counting sheep or worrying about wasting power.

Repeat alarm
